To Whom It May Concern:

It is with great pleasure and excitement that I write this letter of support for the Sequim Baseball Club for their efforts in creating an indoor training facility for the community of Sequim. The high school baseball program will greatly benefit from the use of the facility both during the season and in our off-season as a place our athletes can go to improve their fundamentals and develop new skills. This indoor practice facility will give the youth in our community a chance to continue to compete with larger cities that have the ability to work on their baseball skills year-round in similar complexes.

The Wolves baseball program is growing along with the population of our community. In addition to the traditional varsity and JV program, Sequim has fielded a C-Team for the past 2 years due to the growing popularity of the sport. Our Jr. Babe Ruth and Little League programs have also grown in recent years and this practice facility will serve as a wonderful place for players of all ages to gather, practice, and receive instruction at any time of the year. We are also very excited to have such a positive place where our kids can go after school hours where they feel safe, remain active and have fun.

The Sequim High School Baseball program would like to thank everyone who has helped to make this indoor baseball facility a reality. Without the generous time and money donated by the members of our community, this is a dream that would never have been realized. The Wolves greatly appreciate the support we receive and we look forward to bringing a strong baseball tradition to the city of Sequim.

Sincerely,

Dave Ditlefsen
Head Baseball Coach
